Carol McArdle's oil and acrylic paintings are bold and powerful. They tell of the pleasure she experiences when in the midst of the organic world of nature. She employs painting styles from high realism, especially for her bird paintings; to textured and painterly with expressive strokes. She chooses the style she believes will convey each subject most effectively in each of her highly recognized paintings.

*As well as being featured in many Florida magazines Carol's paintings have been in The American Art Collector Magazine, exhibited in museums, been on tour around the USA and are in public and private collections around the world.*

Since starting her Natural Florida series in 2006 Carol has been invited to hold solo exhibits including 2 Museums and her work continues to receive recognition, grants and awards. Carol's paintings were juried into the 2008 International Guild of Realism Annual Juried Exhibition;

the 2009 and 2010 Birds in Art at the Leigh Yawkey Woodson Art Museum; the 2009 Paint America Top 200 and the 2009 Paint the Parks Top 100 which went on tour for a year around the USA . She was also chosen to be the 2008 Resident Artist of Delnor Wiggins State Park, Naples FL.

Carol was born in Jamaica but from age 3 grew up in Bristol, England. After high school she attended West Surrey College of Art and Design but left early to become mostly a self taught artist. In 1995 Carol moved to Southwest Florida and became an American citizen in 2001. She continues to paint what she and her collectors love and want to remember about the State and National Parks, Preserves and other undisturbed areas of the natural Florida. Her work can be seen in galleries around Florida and on her website at

## How the Pricing Works

First a little about Giclee Prints:

Giclee printing is a new technology that makes high quality fine art prints. The Giclees can be printed on many surfaces but most commonly used are fine art papers and fine art canvases. The inks are made of high quality fade resistant, archival pigments.

A Giclee Fine Art Print is a top quality print in amazing color and made with archival materials. The reproduction is good enough that often the untrained eye cannot tell the difference between and original painting and a giclee print.

Different types of prints you can order

- Carol McArdle Fine Art Giclee Prints are available on watercolor paper or canvas.
- Giclee prints on canvas can be regular or "embellished". (Embellished means the artist will hand paint over much of the print. Each embellished print comes with a certificate of authenticity)
- Prints on canvas can be "gallery wrapped" meaning the print wraps around the edges eliminating the need for a frame.

A few facts about the different types

- Giclee prints on canvas will be stretched just like an original oil painting (contact Carol McArdle if you want to order unstretched prints)
- Giclee prints on watercolor paper will need to be matted and framed with glass.

### THE BOTTOM LINE

- ▶ Prints on paper cost \$.65 a sq" (not including a mat and frame)
- ▶ Prints on stretched canvas cost \$.75 a sq" (not including a frame)
- ▶ Embellished prints on stretched canvas cost \$1.50 a sq"
- ▶ For Gallery wrapped (painted/printed edges) the cost of an added 3" is added to both sides of the print. for example, a 16" x 20" regular print on canvas costs \$240 (16" x 20"=320 sq" @ \$.75 per sq in) —If gallery wrapped the cost is \$327.75. (19" x 23" =437 sq " @ \$.75 per sq in)

Your satisfaction is my top priority--  
Spreading joy is what my Art and my print  
business is all about !

Each order is handled individually and I will be available to answer all your questions and work out the details.
